“ I searched for Donna on Facebook. Wanted to find a way to contact her. In the 1970's, she was my best friend and study partner at Kankakee Community College in the RN program. I remember her young son whom she loved dearly. I am saddened to learn today that she has passed.

“ Donna was my very dear friend. We were always doing things together in Junior High School where and when we met. We spent many hours together during High School. We had so much fun together. Distance separated us after High School but when we talked or saw each other no matter how much time passed it was like we had just been together yesterday. She was a beautiful caring person. She had strong faith. I am so sad to learn of her death. She will always be in my thoughts. When I look at the night sky I will see your shining star looking down on your family and friends and know you are praying for all of us. I will miss you so much.

“ I enjoyed working with Donna at St Mary's Hospital. She was a dedicated nurse and a good friend. I know she truly loved her son. Sending my condolences to her family.
