“ The feeling of loss after having a 45-year of friendship with Kathy is hard to put into words. There are so many memories that include our involvement in Bradley politics, our time serving together on the Bradley Planning Commission, the building of her new home across the street from mine over 30 years ago, our visits to Florida to stay with her Mom in her retirement community, the trips to the casinos with our friend Ora Lee, the pool parties and picnics, the fun times we spent with our dear friends Billy and Toby, the sharing of "our" little schnauzers Scooter and Sammie who spent as much time at Kathy's as they did at home, the numerous vacations we took together, all the breakfast, lunch and dinners we had at Mayberry Junction in Manteno, and so much more. There were many happy times as well as sad times, with family & friend losses, her many medical issues and times when life just seemed to offer challenges, but we could always share it all with each other. I will miss her friendship more than I can say, but I know Kathy is in a better place and no longer suffering and for that I am grateful. Rest in peace dear friend.
